DETAILED ACTION

Request for Continued Examination (RCE)

The RCE filed on October 15, 2007 has been processed. A non-final follows.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The specification is rejected under 35 U.S.C. first paragraph, because the application creating module, forwarding module, and receiving modules are not adequately described in the specification. In the specification, the modules appear to be software not executed by a computer in the system claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10-18 and 20 are rejected under the second paragraph of 35 U.S.C. 112, because the modules described in the system claims appear to be software, as described in the specification. It is unclear whether the software is executed on a computer in system claims.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 10-18 and 20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The system claims describe modules, which appear to be software, as described in the specification. The use of software in the system claims without being executed by a computer or on a computer-readable medium is non-statutory.

Allowable Subject Matter

Claims 1-9 and 19 are allowed.

Claims 10-18 and 20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st and 2nd paragraph and 101, as set forth in this Office action.

Response to Arguments

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.
